

Student Wi-Fi Connection Guide

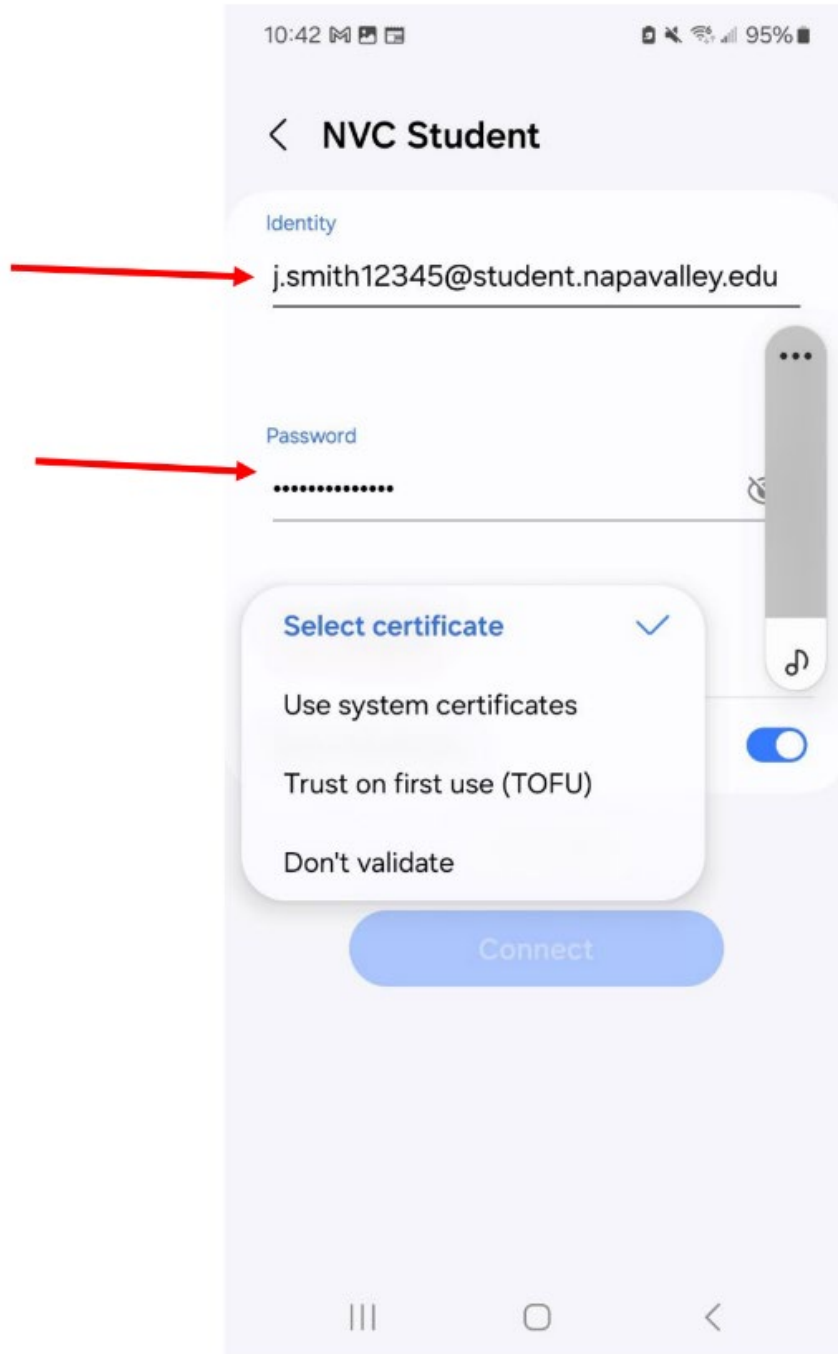

Welcome to Napa Valley College! Follow these simple steps to connect to the campus Wi-Fi network.

Step-by-Step Connection Instructions

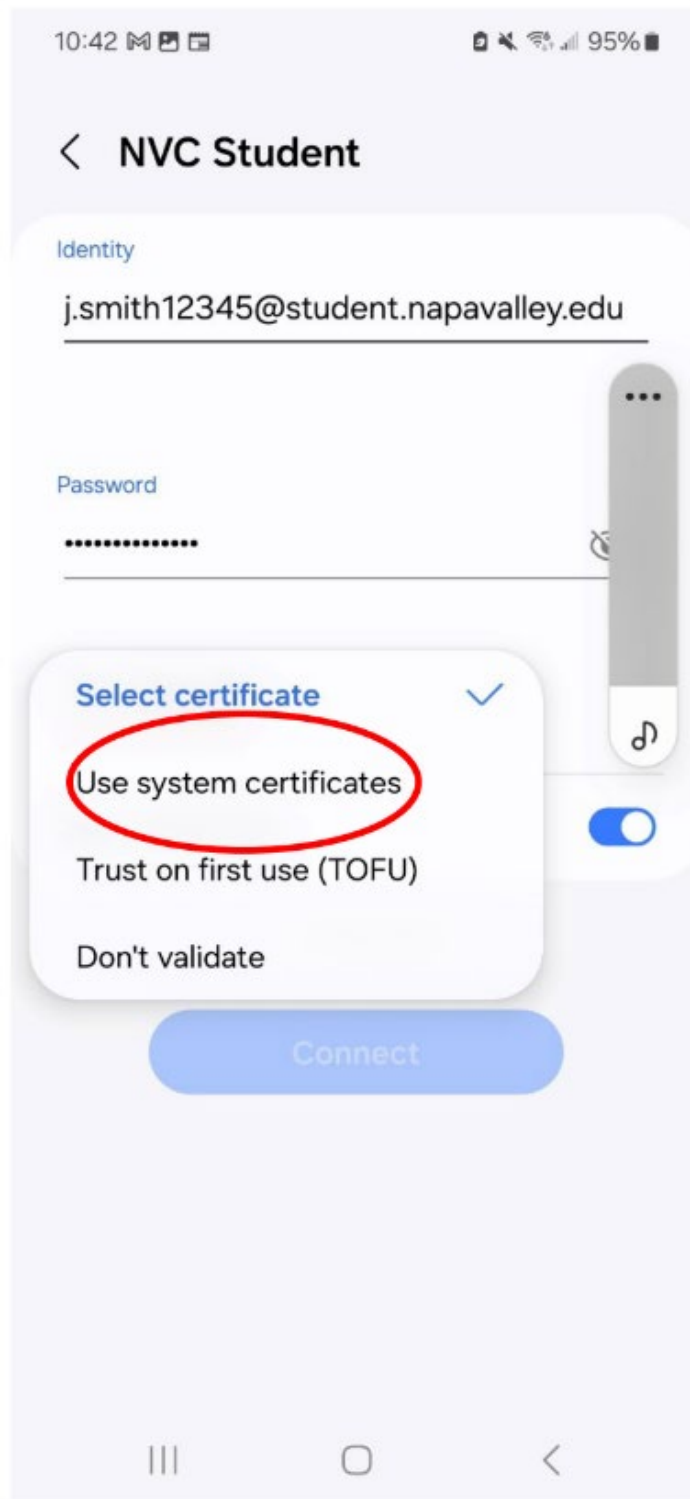

1. Open your device's Wi-Fi settings and select NVC Student from the list of available networks.

2. When prompted for credentials, enter your full NVC student email address in the Identity or Username field.
3. Enter your NVC student email password in the Password field.

4. Under CA certificate, select **"Use system certificates."**

5. If prompted to trust the radius2 GoDaddy certificate, select Trust or Accept.
6. Click Connect to complete the setup.

Troubleshooting Tips

- Make sure you're using your complete email address (e.g., student26535@student.napavalley.edu), not just your username
- Double-check that your password is correct
- Verify that the domain is entered exactly as: napavalley.edu
- If connection fails, try forgetting the network and reconnecting from scratch

Need Help?

If you continue to experience issues connecting to the Wi-Fi network, please contact IT Support by calling 707-256-7550.
